Professional Summary

Aspiring Software Engineer with a strong foundation in Data Structures and Algorithms using Java(Also familiar with python) Proficient in web development with a passion for solving real-world problems through technology. Also, A quick learner with strong analytical thinking, effective communication, and collaborative teamwork skills. I'm excited about the opportunity to deepen my understanding of user needs and industry trends to create intuitive and responsive web solutions.

Skills

Languages: Java, SQL, PL/SQL
Backend: REST APIs, Java Backend Development
Database: Oracle, SQL, PL/SQL
Testing & Integration: Postman, REST API Testing, OAuth 2.0, Integration Testing
Tools: Git, GitHub, VS Code
Other Skills:Project Coordination, Team Collaboration, Time Management, Adaptability, Documentation, Communication.

Experience

Amdox Technologies | web Developer Intern December2025 – June 2026

- Designed and implemented responsive, user-centric frontend interfaces using modern web technologies, improving usability, performance, and cross-device compatibility.
- Transformed complex technical requirements into intuitive dashboards and interactive product demonstrations, enabling data-driven decision-making for stakeholders.
- Collaborated with cross-functional teams to enhance application scalability, optimize UI performance, and ensure seamless integration with backend services.

Projects

Hospital Management System (CareHospital) **July 2025 -Sep 2025**

- Tested doctor booking and bed tracking functionalities for accurate operation
- Verified patient, doctor, and appointment data to ensure consistency and correctness
- Executed test cases and reported defects to improve system quality and user experience

CodeArena – Online Coding Platform **April 2025 - May 2025**

- Tested live code execution and user progress tracking functionalities
- Created and executed test cases to validate platform features and user workflows
- Reported bugs and collaborated with team members to verify issue resolution

AI Product Recommender System **Dec 2025 - Jan 2026**

- Performed functional testing of recommendation features based on user preferences
- Validated system outputs and verified data accuracy across different test scenarios
- Identified and reported defects to improve application reliability and performance

Achievements

June, 2025

1st Prize – Codeathon (Swayambhu 2025, MGM University, JNEC) Secured 1st place in the national-level coding competition Codeathon at Swayambhu 2025. Competed with top participants, solved complex coding challenges, and enhanced teamwork and problem-solving skills.

2nd Prize – Supernova: Code Burst Competitive Programming (MGM University, JNEC) Achieved 2nd place in a competitive programming contest that tested coding efficiency logic building, and collaboration under pressure.

Education

B.Tech (Computer Science Engineering),(JNEC)MGMUniversity	CGPA:6.5	2026
(Class XII), HSC – Rajarshi Shahu Arts Commerce & Science College	82%	2021
